Subject: RE: Sampling in Martinsburg, WV

Great news – it is good to see the preventative sampling work underway in all three communities. Preparedness for when the HA is finalized.

Subject: Sampling in Martinsburg, WV

Just got confirmation from WV Department of the Health, that Martinsburg will take their own PFC samples and do some inquiring of the fire station , and Air guard base, etc., to see if they have used AFFF in the past. Thanks for investigating our sampling options, but it looks like we will get some more updated information through Martinsburg at this point.
